Digital History – The Together Plan Summer 2022 Appeal

Did you know that there are 700 years of Jewish history in Belarus that few know or talk about, not even in Belarus itself? Yet an understanding and an appreciation of Belarusian Jewish history holds the key to a deeper, more meaningful understanding of the Holocaust, Judaism, Zionism and the underpinnings of modern Jewish life. Bringing this unique history into sharp focus for the 21st Century will benefit Jews and non-Jews alike, not just for now, but for generations to come.

We find ourselves at a critical juncture. If we do not do the crucial work right now of capturing the personal stories; identifying and recording the important sites of Jewish cultural significance in Belarus; then this rich history, our history, is at risk of being lost forever.

The Together Plan is at the forefront of developments in the creation of a high specification digital portal, complete with interactive mapping, which will offer access to world heritage sites, personal stories, incredible films and MUCH more. We can save our heritage and preserve the secrets of key sites across the country. Vital information about our cultural roots will become accessible across the globe. This is a powerful and educational community initiative. It will not only help Jewish people in Belarus reconnect to their lost identity, but it will also make it possible for Jewish people around the world to learn more about their ancestry. What is more, it will show the world the significance of the history of Jewish Belarus.

Yes! I want to help make a difference!

With you by our side, we can bring this rich Jewish history to life in our most ambitious project yet. Will you act now to help tell these, as yet, untold stories, educate future generations and shine a light on an incredible chapter in the history of the Jewish people? We know the next steps in the journey, but we cannot do this without you.

Please take a moment to assist us in raising the £25,000 we need for this key project so that together we can make change happen at a time when the world needs to unite and remember the lessons of the past more than ever.
